

# CHATGPT

## IN A WORLD OF SCIENCE OF READING

### WHAT IS IT?

An open AI chatbot that interacts in a dialoge format which can allow educators to access decodable stories based on specific code, grade level, etc. Additionally, ChatGPT can create writing prompts for students to respond to!

### HOW DO I ACCESS IT?

- Start by typing in [www.chatgpt.com](https://www.chatgpt.com)
- You will need to sign up with a valid phone number and email.
- From there you can begin typing in your first request.

### BENEFITS

- Saves time and energy
- Enhances lesson plans
- Gather new ideas
- Boost student achievement

### DECODABLE STORIES

- Grade level
- Specific phonics code
- Single or multisyllabic words
- Preferred theme or topic

### CODE WORDS

- Specific phonics code such as blends, digraphs, r-controlled words.
- Single or multisyllabic words
- Specific prefixes/suffixes

### WRITING PROMPTS

Generates writing prompts for students after reading a decodable story.
